## Profile

I am a 33 year old developer with 11 years of professional experience in object oriented and standards based web development. My work experience has primarily revolved around the LAMP and Microsoft .NET platforms. I am currently located in Western Massachusetts working on a 4 year degree and am looking for regular and standalone contract development work.

## Experience

### **Freelance Development** 2008-Present

Developing and customizing sites for clients with primary focus on CMS customization, e-commerce, and GIS mapping applications.

### **Consultant, Triton-Tek** Chicago, IL 2006-2008

Worked as a consultant for Triton-tek, a Microsoft Gold Partner located in Chicago, IL with a branch office in Chandigarh, India. Responsibilities included onsite consulting for clients, development of custom web applications using C# ASP.NET and various Microsoft Enterprise software products, and leading small development teams consisting of local and remote developers. Lead responsibilities included drafting requirements for 24 hour development cycle, technical review and refactoring of team code.

### **Technical Lead, Learning Point Associates** Naperville, IL 2004-2006

Worked as a Technical Lead for the educational consultancy Learning Point Associates. Responsibilities included writing custom web applications in a heterogenous server environment (LAMP and Microsoft), overseeing development of team coding standards, training materials for growing team of developers, and migration of Microsoft ASP VBScript development to C# ASP.NET development.

### **Proprietor, Phyletic Inc.** Chicago, IL 2000-2004

A business set up to handle contract web development work I was doing at the time. Majority of work was done utilizing LAMP, though Microsoft Platform was also utilized depending on client need. Clients included, Tampico Beverages, Illinois Tool Works, Professional Women's Club of Chicago, amongst others.

### **Developer, Integramedia** Chicago, IL 2001-2002

Worked as a web developer at a short lived tech startup. Applications developed in a heterogenous environment, LAMP and Microsoft ASP.

## Education

Southern Illinois University, Carbondale IL — Anthropology, 2000  
Shang Shung Institute, Conway MA - Tibetan Medicine, 2012

## Skills

Strong grounding in Object Oriented Programming. Extensive experience with LAMP and Microsoft Web Application Development, as well as strong client side Javascript framework knowledge. Currently doing most work utilizing MVC frameworks, particularly CakePHP, and the Mootools Javascript library and CMS customization including customizing Wordpress and Drupal. I am familiar and committed to web standards compliant development, and well versed

# TODD MAREK

in Search Engine Optimization strategies. I also have a good knowledge of various development and project management methodologies, particularly AGILE and Waterfall.
